Battleship
Area 51 Block Party:
Jacob Schumacher, Chris Brantley, Andrew Braswell, Richard Abrams
12/9/19

Title: Save settings
Actors: User
Purpose: Show the process to save settings after they are altered

Scenario 1

Pre Condition(s):   User has application running and is
                      currently at the settings menu

Procedure: User adjusts a setting slider
                      Application saves new slider setting

Post Condition(s):   Changed setting has been saved and will
                      be used next time the application is
                      launched

Scenario 2

Pre Condition(s):   User has application running and is
                      currently at the settings menu

Procedure: User clicks a setting button to toggle a
                      setting
                      Aplplication saves state of the toggled
                      setting

Post Condition(s):   Changed setting have been saved and will
                      be used next time the application is
                      launched
